

AVERAGE JOE AND JANE LAB

NAME _____

SCIENTIFIC QUESTION:

Who grows faster, girls or boys?

HYPOTHESIS: (What is your guess?) I think _____

PROCEDURE/EXPERIMENT:

Design and carry out an experiment to determine if boys or girls grow faster. Write out your steps below. You may or may not need all 5 steps below. Add any if needed on the backside.

- 1 _____
- 2 _____
- 3 _____
- 4 _____
- 5 _____

RESULTS/ DATA: Make a data table for your experiment.

ARGUMENT: Make a claim about what you have found. Who grows faster boys or girls? Create a statement of truth that is supported by **evidence** you found in this lab.

What parts of this experiment were unfair? What are the problems with our experiment?
