

MOON PHASES DRAWING

NAME _____ 19 pts

In the top small box, write the name of the moon phase (starting with new moon). In the lower larger box, make a drawing of what the moon looks like from Earth.

1. How much of the moon is lit up at any time?
2. Why does the moon appear to have different shapes during its phases?
3. How long does it take for the moon to go through all its phases?
